# Cellulose casings from Viscofan – for highest level productivity!

Viscofan cellulose casings combine high elasticity with an extremely consistent caliber. They are permeable to flavours and colours as intended during the smoking process, but are impermeable to other unwanted aromas. With their excellent peelability trouble-free industrial processing is guaranteed.

# Cellulose casings

## At a glance

<b>Advantage</b>	<b>Description</b>
Appearance	Sausages in our cellulose casings are perfectly uniform and give your products an appetisingly natural look.
Caliber Consistency	Outstanding caliber consistency create identical sausages.
Colours	Cellulose casings from Viscofan are available in a wide range of colour tones. You can choose between colours which are transferred onto the product and those which are not.
Less Weight Loss	In general much less weight is lost during cooking than when using natural casings.
Prints	Viscofan cellulose casings can be printed in two-colour prints. We offer a wide variety of colours for you to choose from. Prints which are impermeable to smoke are also possible (shadow print).
Product Range	Cellulose casings from Viscofan are available in standard and fast peel quality. These are also available in numerous colours and standard prints.
Productivity	Cellulose casings guarantee efficient processing and a trouble-free production process.
Profitability	The excellent peelability of our cellulose casings guarantees a trouble-free production process and ensures the highest level of productivity.
Ready to Stuff	Our cellulose casings are ready to stuff, therefore can be filled straight out of the packaging without prior soaking.
Retail Packaging	Since your individual sausages made with our cellulose casings will be uniform in size they are perfect for pre-packed retail units.
Smoking	Your product will show excellent results when smoked. A perfectly balanced transfer of smoke will give your product the perfect look.
